

OSA-4089-63  
14 August 1963

MEMORANDUM FOR: Acting Chief, Support Division

SUBJECT : Cable Distribution

1. This office has been assigned responsibility for writing the daily OSA status report for Dr. Wheelon. Since this is an all inclusive document, covering all facets of OSA activities, it will be necessary for us to have access to as much information pertaining to OSA as is possible.

2. It is therefore requested that one copy of every cable received by Registry Branch, OSA, be forwarded to the Programs Staff. To expedite the distribution of these cables each morning it is suggested that Registry pull one copy of each cable for PS/OSA without marking the distribution and that these cables be made available to the Programs Staff as early as possible each morning.
